

AUTHORIZATION FOR THE PROCESSING OF PERSONAL DATA

With the completion of this document, I give my consent and manifest that I have been informed by LIDARIT that:

- i.** LIDARIT will act as Responsible for the Treatment of personal data of which I am the owner and that, together or separately, may collect, use and process my data by the Company's Personal Data Treatment Policy available at www.lidarit.com.
- ii.** It is optional to answer questions related to Sensitive Data, especially those of personal location and provide the location in real time through the activation of the GPS.
- iii.** My rights as the owner of the data are those provided in the Constitution and the law, especially the right to know, update, rectify and delete my personal information, as well as the right to revoke the consent granted for the processing of personal data.
- iv.** The rights can be exercised through the free channels provided by the Company and observing the LIDARIT Personal Data Treatment Policy.
- v.** For any concerns or additional information related to the processing of personal data, I can contact the email hello@lidar-it.com.

vi. LIDARIT guarantees the confidentiality, freedom, security, veracity, transparency, access and restricted circulation of my data and reserve the right to modify its Policy on the Processing of Personal Data at any time. Any changes will be reported and published on the website in due course. Taking into account the above, I voluntarily, previously, explicitly, informed and unequivocally authorize the Company to process my data following the LIDARIT Personal Data Treatment Policy and for the purposes related to its corporate purpose and especially for legal, contractual, commercial purposes described in the Company's Personal Data Treatment Policy.

*They are sensitive data, those that affect the privacy of the Owner or whose improper use can generate discrimination, for example, political orientation, religious or philosophical convictions, of human rights, as well as data related to health, sexual life, and biometric data.
